Counterfelt Detectors. There is a very large amount

of counterfeit paper affoat, and some of it finds its way to the Treasury, when it is discovered in the redemption division. It is here that all the money sent in from outside sources is counted and examined. The counting and sorting is done by ladies and they are the most expert in the coun try. They can tell a counterfeit instinctively, with eyes open or shnt, and there is not a bank cashier in the United States, or even among the large contingent now sojourning in Canada, who could compete with them in the matter of determining counterfeits. They can tell a spurious bill as far as they can see it, and the mere handling of the paper is enough for them to decide upon its genuineness. The silk paper upon which Treasury notes are printed can only be made by expensive machinery, and it is a felony to even manufacture the blank paper without due authority. Under the circumstances all counterfeits are printed upon inferior paper, which lends this great facility in the mattaking a party of visitors through the redemption division, and was expatiating upon the expertness of the fair money handlers in this respect. He solemnly assured the party that one of the girls had detected a counterfeit in the middle In all widths and qualities. of a pile of money six inches thick by merely seeing the thin edge of it. I am happy to say that this imaginative public servant has been discharged under a reform admin. istration, but after all it was only an exaggeration of a demonstrated fact. To a stranger it seems more like diableri than the possession of trained vision, and a delicate sense of touch in the detection of counterfeits.

a month for their services. They takes a month would wipe out a the richest fruit section of the for everybody who wanted it. girl's salary, as some of the bills State of California and will uned by the continuous handling of cutic has heretofore enjoyed a momoney. The backs of all Treasury | nopoly.-Ex. notes are printed with a pigment which consists chiefly of Paris Adelaide Nellson's Photographs. green. Small particles of this substance are absorbed, and in a year or two the girl who may have entered the Treasury smooth skinned and healthy finds herself a victim of Lissitale, and with her hands and face broken out in ARIZONA miligaant sores. Eich employee is farnished with a sponge to moisten the fingers while conuting. A new one is supplied every morning, and by evening its color will have changed to a dull black by the action of the poison. Notwithstanding this drawback there is never any difficulty in filling

vacancies.

Gen. Miles' Report. Gen. Miles, connector of the military department of the Missouri, in his report to the Aljatiement, with land enough rerank of second lieutenant, provi- larly favored individual. The draded they pass a rigid examination. matic critic of her time who did date three times. These facts

Invading the Southern Pacific's Territory. The Atchison, Topeka & Santa Fe and Atlantic & Pacific Railthemselves entirely from the dictation of the Southern Pacific, and are rapidly extending lines to all These roads, when they purchased work. the Mojave Division of the Southern Pacific and entered into an arrangement for the use of the latter's line from Mojave to San Francisco, expected to be treated fairly by the Southern Pacific and be allowed to interchange business for Pacific coast points at the same terms as the Southern Pacific itself enjoyed. But the latter has sought to embarrass the Santa Fe and Atlantic & Pacific whenever an opportunity afforded, and has taken every advantage it could to prevent those lines from competing with it on even terms for Pacific coast business. The Santa Fe and Atlantic & Pacific, finding there was no hope of obtaining fair and just treatment from the California monopoly, are now that will soon enable them to assume the offensive against the Southern Pacific and give them a dose of their own medicine. The San Diego extension, from Mojave to San Diego, upon the construction of which the Santa Fe and Atlantic & Pacific have been engaged for some time past, will be completed next month, which will ger will be in their places as little enable these roads to reach San Francisco by steamer from San Diego, entirely independent of the Southern Pacific, giving them at the same time an opportunity to make whatever rates they choose from the Missouri River to San Francisco. Not content with their San Diego outlet to the Pacific Ocean, they now propose to at once invade the choicest territory These female experts receive \$75 of the Southern Pacific. They propose to build a line from Wado nothing but count from 9 in terman, the junction of the Atlanthe morning until 4 in the after- tie & Pacific, via Riverside and Arnoon, and their hands move with lington, to Los Angeles, the disa rapidity seldom acquired by the tributing point of Southern Cale ginia & Gold Hill Water Company most expert bank clerks. But they ifornia. The right of way for one day when he was on the crest make no mistakes. A miscount four fifths of the line has already or a counterfeit overlooked comes been secured, and no trouble is out of the wages of the one making anticipated in getting the remain-

> From "Uncle Bill's" New York Letter. In one of the many Broadway windows in which the faces of

tion to other commodities, a variety of photographs of Adelaide Neilson have just been arranged. "The fact is," said the man who had revived this lovely but almost forgotten beauty, "that we aim to change the pictures often, and no fresh loveliness has lately been disclosed on the American stage. Last winter did not bring out a single beautiful new face for the footlights to shine on. Some of the old ones held over well enough for stage purposes, but for photographic beanty they were played out. "That is why I have gone back six years to Neilson. tant General of the army, says No other face has yielded so much that before the trouble New Mexi- profit to the photographers." an accident. Work as many miners as can profitably be worked below and as few officers as can be got along T. R. Morgan, Park City, Utah.

Trout-Fishing Without Hooks,

From Virginia City (Nev.) Chronicle. The famous fish, pienic which John Skae, the former millionaire, gave at the reservoir of the Virof the wave of his prosperity was a queer one. Every Comstocker of any importance at all was inthe error, and two or three mis- der. The road will pass through vited, and there was champagne

This reservoir is a mile or two handled are large. The drawback doubtedly divide that profitable back of Virginia in the hills, and which winds along the mountain sides Washoeward like a red serpent. Every guest did his own fishing and did it without hooks. The reservoir was stocked with Eastern tront, the little fellows showing black and red spots on beautiful actresses are displayed their backs and sides. They were either for sale or to force attenand are to this day very numerous and suprisingly tame. A handful of crambs thrown into the water will bring hundreds of them rush-

> The poles furnished Skae's guests were laths, the lines bits of twine about two feet long. At the end of each line a piece of tough beef the size of a hickory nut was firmly tied. The instant the beef struck the water scores of trout made for it, and the angler would jerk them ashore by their own teeth before they could let go. The privilege of fishing in the reservoir is s, aringly granted, for any one armed with this simple tackle can land a dozen in three minutes. Hundreds of pounds of tront were caught by Skae's party and cooked on the spot.

ing to the surface toward the food.

The Republican party was formed in New York in 1855, just thirty years ago. In the election of 1855 the Know-Nothings carried the State, very much to the surprise of both Democrats and Republicans. Since then the Republicans have elected the Governor seven times and the Democrats six times. The Democrats have elected what are called the State officers eight times and the Republicans have also secured them eight times, though to speak with absolute accuracy a portion of the ticket of each party prevailed in two of these contests. During the thirty years since the formation of the Republican party in New York, that organization has given the Electoral vote of this State to its Presidential candidate five times, while the Democrats not get one, with her antograph prove that for the last thirty years doubtful State.-Yew York Sun.

The stage line from Deming to southward. - Lone Star.
